I. M. CHALMERS.

Davin Among His Moose Jaw Constituents.

HIS STRUGGLES FOR TARIFF REFORM ENDORSED BY LIBERALS AND CONSERVATIVES.

Speeches by Mayor Grayson, and Messrs. Watson, Ross, M.L.A., Rothwell, Battell, and Baker.

A meeting was held on Monday in the Town Hall to hear Mr. Davin give an account of his stewardship. It was a magnificent meeting, mainly of farmers, some of whom had come from the most distant part of this district. On the motion of Mr. Baker Mayor Grayson was moved to the chair. (cheers).

The Mayor, in introducing Mr. Davin, said he was not one of his supporters. At the same time he was always glad to hear him. They always heard him with pleasure. As they had not heard from him for some time it was meat he should come, and he had no doubt he was full of new ideas as he always was. He (Mr. Grayson) might not agree with him, but as he always had some original views he liked to hear him. He would now call on Mr. Davin.

Mr. Davin on coming forward was received with cheers. He said he was not certain whether Mr. Grayson viewed him with favour or not, but of this he was quite sure, he was not what one would call a zealous supporter, (laughter). He felt great pleasure in meeting his constituents of the Moose Jaw District, and he was greatly pleased to see so large an assembly. The great question before them and before the country was

TARIFF REFORM.

In 1892 he had urged on the government certain changes in the tariff which he thought would have relieved the farmer considerably, and to which he thought he was entitled from the point of view of justice, and he thought he had persuaded Mr. Foster, so fully was he convinced of this that when he went into the bye-elections to help to win them he told the farmers that certainly the duty on binder twine would be removed, and last session, they would remember, he said in speaking on Mr. Mulock's motion that he felt he had the previous year help to win a few elections by something like false pretences. When he went to Ottawa last January the first thing he did was to put the following motion on the paper which had appeared on the second day of the session: "That it is the opinion of this House that the duty on barbed wire, agricultural implements, coal oil and cottons should be reduced so as to give no more than reasonable protection, and that the duty on binder twine should be abolished." He had framed that resolution looking at what seemed to him the needs of the farmer, and it was a remarkable thing that the petitions presented from all sides, by farmers in various districts, by the Patrons of Industry, asked practically for what he asked. The farming community was, in his opinion, the backbone of a country, and you could not have a truly prosperous country unless you had prosperous, or at least comfortable and well-to-do farmers, (cheers). Now you could not but by means of duties protect the farmer, especially the farmer in the west, because he produces a surplus and the market which regulates the price of his commodities is outside the bounds within which the laws of the Canadian Parliament operate and rule. Most absurd arguments were used, he was sorry to say, he believed with perfect sincerity by many to convince the farmer that he too was protected, arguments which, if he were a schoolmaster and a boy in the fourth form used them, he would feel inclined to wield the lash and lay it on in, to use the language of Marlowe, better known as George Ethel, "twit and cat"

places." (laughter). For instance it was said "we put a duty on wheat." But, as had been already indicated, that cannot affect prices because we produced a surplus of wheat, and therefore the farmer sells in an open and buys in a restricted market, (hear, hear). The United States farmer had swallowed this until lately, but the election of Mr. Cleveland and the approval with which the Wilson tariff and the addresses of President Cleveland had been received in the rural districts showed that the United States farmer had awaked from the delusive dream. It was argued that if the farmer was not prosperous, let millionaires become over so numerous, the country was in an unhealthy state. In fact these millionaires had got a good deal of their gold out of the farmers' pocket, and when the Carnegies and the Masses' built churches and gave donations of \$100,000 to institutions of culture it came in great part out of the pockets of the farmer; and when these millionaires went over to Paris and their wives got so proud that they could not live in a city of the new world, and their daughters must buy impoverished primers, and hairs to Marquisates and Dukedoms, and luxury sumptuous, wild and wanton was indulged in in European Capitals. The farmer might address them as a London cabby once addressed him. He (Mr. Davin) when a student in the Temple was going out to dine at the Junior Garrick. He lived in Sloane Street at the time. The price was just a shilling, but the London cabby always expects more than his fare, but he is liable to punishment if he asks more and never does so if he is convinced you have an accurate idea of what he should get. I, said the speaker, had the "boh" ready and as I stepped out of the hansom I handed it to cabby. He eyed it with disgust and as I was entering the club door he cried: "There you are now again! to henjoy yourself at my expense." (laughter and cheers). The only way we can protect the farmer is by giving him his means of production, his implements and other necessities as cheap as possible, (cheers). It was said that the farmer below the line was worse off than the Canadian farmer and this was used as an argument in favour of the National Policy, as it affected the farmer. But if his own argument for tariff reform was correct this is what we should expect, because the United States tariff was higher, more unscientific, more against the farmer than our own. Mr. Davin then went into other matters which had been transacted during the Session and resumed his seat loudly cheered.

The Chairman (Mr. Grayson) said he was sure they had been charmed with Mr. Davin's eloquence. He hoped some attention would be given to the subject of farmers being forced to take out their patents.

Mr. W. Watson said the question mooted by the chairman had, he believed, been dealt with.

Mr. Davin: I may as well say what has been done. When I came back I heard of this regulation, I saw at once it was stripping the farmer of his sole defence often and I wrote to Mr. Daly who wrote me saying he had written Mr. H. H. Smith telling him not to press that regulation. No one should take out his patent until we shall have passed a law which will protect the homestead.

Mr. Watson continuing said a good deal would depend when Parliament met on what would have been done in the United States. They had put a record on the Statute book that whenever the American Government would reduce their tariff on a number of articles we in Canada would make a similar reduction. The Government in power was bound by that. It would not be wise now of Mr. Davin to take this or that article but to stand behind that clause as a rampart and when we saw implements, binder twine, coal oil and binder twine free by the United

States then our Government was bound to make these things free too. With respect to

Mr. Davin would like to remark that partly through the action of Mr. Davin the grant had been increased, and he had heard demands for \$500,000. We were all in favour of immigration, but he thought it would be better for the country and would be the best way of fostering immigration if a good part of the \$200,000 was spent in the North-West in helping to make the farmer comfortable and contented, by digging artesian wells and cheapening fuel (cheers) and exterminating the gopher. Then people would write and encourage letters and there would be no need of immigration agents.

Mr. McWilliams: That would be the best advertisement they could make.

Mr. Watson: One reason why the North-West and Manitoba have not gone ahead as it should is because the western Members have been acting individually as units either from personal jealousy, a local feeling, instead of uniting as one man. It has been a little better during the last session, but until the western members will agree to think less of themselves and more of the country, the member for Western Assiniboia acting alone and getting no help from them, we in the North-West will never get those concessions and that help from the Government that we ought to get, and I urge on the other Members and Senators that when Parliament meets let them have caucus after caucus until they agree upon a plan and a leader and let every man follow that leader, and in this way get rights for us that we otherwise cannot get (cheers).

Mr. Ross, M.L.A., who was received with cheers, said he had been very much pleased to be there to-day and listen to our member once more. It pleased him especially to know that Mr. Davin, since 1887, had had a great change come over him. He (Mr. Ross) believed then as he believed now that the farmers of the North-West could only be prosperous when they had the power to buy in a cheap market. He could have nothing in issue with Mr. Davin who believed we should have tariff reform. He (Mr. Ross) did not believe any member of the Liberal party advocated what they were advocating now, but before even Mr. Davin took it up the farmers of Canada had moved, but he would say this in Mr. Davin's favour that he was one of the first to strike a blow on Parliament for tariff reform, and though he did not approve of all his methods as a constituent he was proud of him for doing this. Mr. Davin had done first rate (cheers). He (Mr. Ross) hoped he would even do better. The man who had the best interests of his party even at heart would not make them believe that everything was easy and right (loud cheers).

Mr. Rothwell hoped their member would, on the subject of tariff reform, speak with no uncertain sound. He was not quite sure Mr. Foster believed we wanted tariff reform. Many things Mr. Davin had done had been favorable to us and he hoped he would continue for thorough tariff reform.

Mr. E. N. Hopkins was pleased to see so many farmers there that day and to hear Mr. Davin. He never doubted that the National Policy was a little hard on this country and Manitoba. He had been very much pleased to hear Mr. Davin to day and he wished to say, as a farmer, that he believed Mr. Davin ever since he has been our member has stood up bravely for the interests of the farmers of this constituency (cheers) and the North-West. Every farmer would agree that he had been looking after our interests and he move that a vote of thanks be tendered to Mr. Davin and that we as farmers are thankful for his efforts in trying to remove our grievances, (cheers). Mr. Rothwell seconded the motion.

FRIDAY, DEC. 22, 1893.

THE ART OF KISSING.

WE are favored with a letter on the subject of kissing, from a correspondent signed himself, or it may be herself, in which case the directions given would of course be more valuable, "Experience." It is an important subject because, if we are correctly informed, the fashion is one finding approval in many circles, and without professing to know anything about the art of osculation, we feel that information on the subject from "Experience" might be useful. But surely it is unnecessary to say, "it is best for you to know whom we are going to kiss," unless that it is intended to mean that with kissing, as with whiskey, all is good, only some is better than the other. Even then it might be well for married people, at any rate, to ascertain whom they are going to kiss, or at least if they do not, to be quite sure that there is no one looking on. People are apt to be narrow minded on this subject, and we have known ladies to be quite displeased on finding their husbands practicing the art with a pretty maid servant. Then the injunction not to "jump like a trout after a fly and smack 'a sweet and pretty girl on the neck 'or ears, or the corner of her forehead, 'or top of the nose," is hardly required. No one in civilized lands selects the tip of a girl's nose, though in other respects much latitude is allowed, and rules on the subject are apt to be disregarded, on what may be called the spur of the moment. "Don't kiss every girl you meet" is very sound advice, which when neglected is apt to cause delay, and sometimes altercations and other unpleasantness on the street, and the injunction, "Don't sit down to kiss the girl," is wise, because if you do the girl is apt to get away. You cannot in reason expect a pretty girl to wait while you are making preparations that may mean that you are only going to have a quiet cigar.

These are some of the things which "Experience" says you are not apt to do; the direction concerning what should be done we omit because they are mainly repetitions from an old and classic author, who has gone very minutely into the subject. The signature "Experience," implies that our correspondent has followed this author's directions, and though we are quite ready to believe on good authority, that there are pleasures in osculation, such as our correspondent describes, it is difficult to avoid thinking that, when two persons of the same mind find fitting opportunity, they will invent a system of their own which will answer every purpose. Rudyard Kipling says in one of his ballads: "A kiss or two is nothing to you," and, as so much depends on time, place and circumstances, the better plan seems to be to get out of the way and allow those principally concerned to follow the fashion that seems best to them. By lingering about the spot with the object of imparting instructions as to method, you run great danger of spoiling the whole thing. Free Press.

The knack of hurling an anathema from the pulpit has not been wholly lost in Scotland. The nomination of Prof. Story as moderator of the next general assembly has aroused the

ire of the Rev. Jacob Primmer, and he has declared that he regards the nomination in the light of "a deliberate insult to the people of Scotland, and to God Almighty himself." To cause rate his crimes, Prof. Story is a frequenter of balls, plays and theatricals, advocates the opening of botanical gardens, museums and picture galleries, and the running of trains on the Sabbath.

The anarchist who dropped the bomb in the Chamber of Deputies in Paris was so badly mangled himself that the police had to patch him together. They could have let him die, but they wanted to save him, so that in case anyone dies they can shorten him by a head as a warning to others of his kind.

The football game between the Yale and Princeton in New York on Thanksgiving day netted \$17,000 gate receipts, which sum, after the payment of expenses, will be divided between the two teams, which will receive about \$20,000 apiece. Football may be a brutal game in the field, but looked at through the box office it has an attractiveness which robs it of many of its terrors. Money is a slave which will heal any number of abraded shins, broken noses and cut ears, and possibly if these were not looked for consequences of the game the financial returns would not be so great.

There are so many destitute persons in Chicago that when the relief office is opened in the mornings they struggle like wild beasts for the food and clothes given out. The police stations are filled every night, and many churches have thrown open their doors to shelter the homeless. What to do in the emergency is a question which the authorities do not know how to grapple with. They believe that the starving crowd will scatter in time, making its way to places which promise work sustenance, but the present situation fills the city government with dismay.

We apologize to the City Council. We do not mean any half-hearted, lopsided or knuck-kneed retraction, but a whole-souled apology. For years we have been declaring that a large proportion of its members were so corrupt and so stupid that as a body the Council did not fairly represent the electorate. In this case we did the council an injustice. We have come to the conclusion that the aldermen, such as they are, are fairly representative of the electorate. If there were no fools and no rogues in the Council, an important section of the electorate would be entirely unrepresented, which would be an obvious injustice.—Montreal Star.

The rabid annexationists who are urging the absorption of the Hawaiian Islands by the United States have been trying to create sympathy by making it appear that their opponents are subjugated by British sentiments, and are backed up by agents of the English government. At the present critical juncture in the Hawaiian situation they have spread the report that Hon. Mr. Bowell's visit to Honolulu was in connection with a British intrigue to capture the Islands. The story is supremely ridiculous to those who understand the circumstances of his brief visit. Sir John Thompson's prompt denial of the story should dispel any fear that it may have caused at Washington, where anything hinting at British aggression finds a willing ear and ready belief.

Toronto World: We do not care to be recognized as a prophet, but as far as we can surmise from the expressions of members of Parliament who are of the dominant party we would say that the next election will be held in the summer of 1896. Two more regular sessions of the present Parliament can be legally held and doubtless will be, allowing the sixth and last Parliament to terminate in March or April, 1896. The only members who are anxious to see an election are a few Conservatives who have an eye on an office when Parliament is dissolved, and some of the leaders of the Reform Party. But the bulk of the members do not want an election, and the Government must in a measure respect their wishes. This being the case it would be a matter of economy for the House not to order a revision of the

voters' list until 1895. Some politicians, not the country, are clamoring for a fight; the Conservative party is going through a steady process of reconstruction, perhaps regeneration, and prefers to take time over it. With a revision in the summer of 1895 and a campaign session the fall and winter thereafter, the country will be ready for a hot contest on questions not "in it" at the present moment, and not on the issues which today have been greatly exaggerated. The great thing is to keep cool.

Regina Standard: It the National Policy has not been productive of all that was expected of it, it certainly has been effective in one of the ways predicted, viz: in convincing the great Republic that Canada could not be crushed by a hostile tariff. The present financial depression has affected us less than it did them, and if the one-sided policy of Cartwright et al had prevailed, there would today be no Canada. Our neighbors abrogated the old treaty, and shut us out of their markets. We were compelled to protect ourselves and to seek other channels of trade. But time has wrought its changes. They now exhibit a more friendly mood, and although the pacification is not brought about by way of treaty, yet we are ready to meet them. It is better for all concerned that the change comes about through independent enactment, for it leaves us and them at perfect liberty to treat with other nations.

News From the Interior of Africa.

Miss Johnston at Her Journey's End—Details of School Life With the Native Children.

Cisamba-Bibi, Sept. 19, 1893.

I must say I thoroughly enjoyed the inland journey—fine weather and good carriers are two important requisites, and we had both. We got fresh carriers at Bailunda, but could only get 25 men, so instead of six men for each topeia, we had only four each, and then we left several loads behind to be sent on later. One of my men rejoiced in the name of Olundungulu (meaning a star). His father was elected by the natives to be king after Ebiyiki's death, but somehow or other Ebiyiki's candidate was finally chosen. It took six days to go from Bailunda here, and it was a triumphal march all through. The country of Bibi is far more thickly populated than any other through which we passed, and, as the news of our coming had gone before us, the natives of each village shouted welcomes as we passed. We stopped only at one, (we counted about fifty villages one morning) Ocipele—the village of Katakola, an old chief who is very friendly with missionaries. He seemed very pleased that Mr. Currie had come back and sent the present of a goat to us. We camped that day two hours from Ocipele, our tent was soon surrounded by crowds of natives, anxious to see the new olondona (ladies). Several waited till the moon rose to be present at evening worship. Next morning we started at sunrise; one of the boys called me at 4 and had breakfast ready before daylight, so anxious was he to get home. About 10 a. m. Ugulu met us. He at once took hold of my topeia, and others took Miss Melville's, and they carried us the rest of the way, cheering and singing. After about an hour we came in sight of Cisamba station—flags flying and from all sides cries of welcome. And finally we were landed at Lee's house, Mr. and Mrs. Lee standing at the gate; it seemed like getting home, the welcome was so cordial. The boys fired off several shots. The next day all the old chiefs of the neighboring country came one after the other to pay their respects to "Uana-Kole and olondona" (Mr. and Mrs. Currie and the ladies), and the attendants of each would fire four or five shots as soon as they entered the yard.

We arrived on Thursday, Aug. 24. The Sunday following there was a congregation of about 300 in the schoolhouse and crowds outside. The Reads are at Bailunda, Mr. and Mrs. Woodside and three children are going to Sakanjumba, a new station three days' journey from here. Mr. and Mrs. Lee left last week for the same place. Miss Melville and I have their house. It is a nice large one, 40 feet long, built of red clay like brick, thatched roof, bay windows fitted with blinds, porch over door and veranda on one side. We have a large sitting room 18x15 (not including bay window) dining room nearly as large connected by archway, two large bedrooms 18x18 study or office, kitchen and pantry, rice garden in front (sloping) and a large one at one side with bananas, orange trees, etc. From the front garden gate a path slopes rather steeply to the brook which it crosses and rises up the opposite bank to Mr. Currie's house, which is quite a large one not quite finished.

I started school on the 4th of September, ten days after we arrived, and it is astonishing how well we manage with the small amount of Umbundu we possess. I don't find the language very difficult, and like it very much. It is much nicer than English—soft and musical.

School commences at 2 o'clock p. m. every day, except Saturday (they all prefer the afternoon). Miss Melville takes the little boys in what used to be the schoolhouse, now the dispensary. I take the older ones, 28 of them. There are 42 boys living at the station all attending school. At 4 I have the girl's school, in the building right behind our house, Miss Melville having dispensary work to attend to at that hour. There are 47 girls enrolled—but as most of them live at the villages some distance their attendance is not so regular. At 6 in the morning the

boys have their own prayer-meeting, led by Ugulu. He is a wonderful lad about 22 or more, perhaps, tall, towers above all the rest, not at all handsome, but his Christian character is marvelous. I don't think there is a flaw in it. He has a great influence over the boys; they just love him. He always has two or three boys in his house and looks after everything. For school he studies perseveringly. I am always sorry if I have to mark a mistake in his arithmetic, but he only smiles and goes to work never resting till it is rectified.

Every evening at 7 o'clock the boys assemble in the schoolhouse for evening worship. We have Miss Clarke's organ; it is a nice one for its size. Sunday the boys have their usual prayer-meeting a little later. At half past ten we have service—a very good attendance. After service, after an interval of 15 minutes, the girls and women gather in the new school house for Sunday school. The boys go across the stream to Mr. Currie's side for theirs. We have two little fellows working for us, Udalu and Eyelo, one is house boy. The former is now digging up the garden beds. We expect good vegetables shortly; along the banks of the stream are beds already planted. We have had strawberries already, and bananas, pineapples and oranges. Lemon trees are all in blossom. The rainy season has not yet set in, when it does we shall have abundance.

Cinona, the boy who is going to take the mail to Kamaundonge, where letters go first (as they send the mail to the coast), has just come in to get ours. Letters must go from here before the 21st of each month. We get letters about the 24th.

CARON CHIRPINGS.

Mr. and Mrs. James Campbell and family leave this week for a three months' visit to relatives and friends in Ontario.

Miss Flora Colenutt who has been visiting in Moose Jaw returned home this week.

Charles Colenutt had the misfortune to lose a fine mare last week by being gored by a bull.

Quite a number of neighbors and young people assembled at the residence of Mr. James Campbell last Friday night (guests) at a farewell party and enjoyed themselves in music and dancing till the small hours of the morning.

John Logan and W. J. Hill are visiting in Swift Current.

DR. ROSE'S CASE.

Cured of Diabetes, by Dodd's Kidney Pills, after blood poisoning had set in, proves the value of the remedy.—Kingston people interested in the case.

KINGSTON, Dec. 18th, 1893.—The residents of this section of Ontario are deeply interested in the case of Dr. E. A. Rose, of Portland, who was cured when in the last stages of diabetes by Dodd's Kidney Pills. The reluctance of doctors to use, or even recognize, patent medicines is well known. The public, therefore, reason that when a medical man acknowledges that he owes his life to Dodd's Kidney Pills, and gives practical proof of his belief in their merits by prescribing them, these pills must possess extraordinary virtues.

LORD ABERDEEN'S WEALTH.

It will probably interest very many of our readers, to know that the Earl of Aberdeen, our present Governor-General, is a very rich man. From the estate alone he draws nearly £60,000 a year, and by receipts from other sources that rather comfortable income is considerably increased. Before coming to Canada it was conveyed to him by no less a person than the G. O. M. himself, that the position of Viceroy of India was his if he cared to take it, but his Excellency expressed a very decided preference for the Dominion. While the salary of Lord Elgin of Kincardine, another Scotman, by the same token, as Viceroy of India, will

be \$300,000, the office being the best paid of any in the gift of the British Crown, that of Lord Aberdeen at Ottawa, is something less than \$30,000. But his Excellency of Canada has brought with him a formidable retinue of 47 servants. His Excellency has determined to ship 14 of them back to their native heather. While for the Earl of Aberdeen the salary of India had no attraction for Lord Elgin, grandson of our Governor of nearly half a century ago, it is a grave consideration, as he is one of the poorest of the Scotch earls, and has a large family. The Marquis of Landsdowne, the present Viceroy, and the Earl of Derby's predecessor in Canada, possesses an income of \$350,000 a year, independent of his official salary, while both the Earl of Northbrook and the Marquis of Ripon were rich and enormously wealthy, that they declined to accept either salary or allowance from the national treasury for their services in this office.—Exchange.

NORTHWEST PACIFIC EXCURSION.

The Northern Pacific Railroad has put into effect a series of low round-trip rates to Pacific Coast points. These California tickets are good until April 30th, 1894, and are good for stopover under certain conditions.

These rates will enable those desiring to do so, to spend the winter in Southern California, or to visit the mid-winter fair to be held at San Francisco. This latter event will undoubtedly be second only to the World's Fair just closed, and will repay a visit as it will exhibit the resources and capabilities of California.

From Winnipeg, Portage la Prairie, and Brandon to North Pacific coast points and return \$70.80; to San Francisco, and return \$100.80; to Los Angeles and return \$119.80 to San Diego and return \$129.80.

Relief in Six Hours—Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by W. W. Bole.

The

North-Western

Line

Note the following from the World's Fair letter in the Minneapolis Spectator:—

"The committee which compiled statistical information relating to American railways were high in their praise of the manner in which the great roads prepared facilities in caring for the enormous traffic occasioned by the World's Fair and while all the Chicago, St. Paul lines were commended in favorable terms, the North-Western Line was especially commended as between Chicago, St. Paul and Minneapolis. This adds another laurel to those already gained by Minnesota, as the North-Western Line—C. St. P. M. & O. Railway—is one of the recognized roads of the North Star State."

Our trains are equipped with Vented Gaslighted Buffet Sleepers and Free Reclining Chair Cars.

THE GREAT SOUTH AMERICAN NERVE TONIC

AND STOMACH AND LIVER CURE

The Wonderful HEALTH BUILDER & NERVE FOOD

Chronic Diseases are caused by Deranged Nerve Centres at base of the Brain.

LATE discoveries have absolutely proven that the Stomach, Liver, Lungs, and indeed all internal organs, are controlled by the nerve centres at the base of the brain. The manufacturer of SOUTH AMERICAN NERVE TONIC has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases, are due to the imperfect action of nerve centres, either within or at the base of the brain and not from a derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.

As all know, a serious injury to the spinal cord, will at once cause Paralysis of the body below the injured part, it therefore will be equally well understood, how the derangements of the nerve centres, will cause the derangement of the different organs of the body which they supply with Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVE TONIC is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is indeed, a veritable Nerve Food and Will Relieve in One Day the varied forms of Nervous Disease and Stomach Troubles.

Nervous Diseases.

This class of diseases is rapidly increasing each year, on account of the great wear our mode of living and labor impose upon the nervous system. Nine-tenths of all the ailments to which the human family is heir, are dependent upon nervous exhaustion, impaired digestion, and a deteriorated and impoverished condition of the blood. The SOUTH AMERICAN NERVE TONIC is a great nerve food and nerve builder and this accounts for its marvellous power to cure the varied forms of nervous disease, such as Neuralgia, Nervousness, Nervous Prostration, St. Vitus's Dance, Nervous Choking, Nervous Paralysis, Twitching of the Muscles, Hot Flashes, Mental Depression, Irritability, Sleeplessness, Restlessness, Nervousness of Females, Irritability of the Liver, Sexual Weakness, etc.

A SURE CURE FOR ST. VITUS'S DANCE.

My daughter, twelve years old, had been afflicted for several months with St. Vitus's Dance. She was unable to do a single thing, could not walk, could not swallow anything but milk. I had to handle her like a baby. The doctors and neighbors gave her up. I then secured a bottle of SOUTH AMERICAN NERVE TONIC, and after three bottles were taken, she was able to walk, and after six bottles she was able to do all the ordinary work of a child. I think the SOUTH AMERICAN NERVE TONIC is the greatest remedy ever discovered, and I recommend it to everyone.

State of Indiana, Montgomery County, Ind.

Subscribed and sworn to before me this May 19, 1893.

CHAR. M. TRAVIS, Notary Public.

A WONDERFUL CURE FOR

INDIGESTION and DYSPESIA.

Loss of Appetite, Weight and Tenderness in the Stomach, Sour Stomach, Pain in the Stomach, Wind upon the Stomach, Nausea and Sick Stomach, Sick-Headache, Hiccough, Water-Brash, Heartburn, Vertigo and Dizziness, Sleeplessness, Frightful Dreams, etc.

The Stomach suffers more than any of the other organs from disease, because into it are taken so many indigestible and irritating substances as articles of food. In its great effort to digest these, it soon becomes weakened and diseased. Under such circumstances, it is not wonderful, that so many complain of Indigestion and stomach troubles. When the Stomach fails to digest and assimilate the food, the whole body falls into a state of weakness and decay. Nature has decreed that the body must constantly receive nutriment through the Stomach, to repair the waste of tissue constantly going on in the system.

The South American Nerve Tonic

Is probably the greatest remedy ever discovered for the cure of all Chronic Stomach troubles, because it acts through the nerve centres. It gives marked relief in one day, and very soon effects a permanent cure. The first bottle will convince anyone that a cure is certain.

WHAT EX-MEMBER OF PARLIAMENT, REUBEN E. TRUMAN, SAYS.

I have been for about ten years very much troubled with indigestion and dyspepsia, have tried a great many remedies, but without permanent relief. I have been treated by a number of the best medical men, and have found no benefit. I then secured a bottle of SOUTH AMERICAN NERVE TONIC, and after three bottles were taken, I felt much better, and after six bottles I was able to do all the ordinary work of a man. I think the SOUTH AMERICAN NERVE TONIC is the greatest remedy ever discovered, and I recommend it to everyone.

It will cure you.

July 16th, 1893.

Price, One Dollar.

In Bed Six Years

HARTFORD CITY, Blackfoot Co., Indiana, June 6, '93

South American Medicine Company.

GENTLEMEN: I received a letter from you May 27, stating that you had heard of my successful recovery from a spell of sickness of six years duration, through the use of SOUTH AMERICAN NERVE TONIC, and asking for my testimonial. I will gladly state how I was afflicted and how I was delivered from my pain and suffering. I was near thirty-five years old, when I took down with nervous prostration. Our family physician treated me, but without benefiting me in the least. My nervous system seemed to be entirely shattered, and I constantly had very severe shaking spells. In addition to this I would have vomiting spells, and there would be from fifteen to twenty days at a time that I could not retain anything on my stomach. Many consultations were held by physicians over my case, but they all agreed that I would never leave my bed. During the years I lay sick, my folks had an eminent physician from Dayton, Ohio, and two from Columbus, Ohio, to come and examine me. They all said I could not live. I got to having spells like spasms, and would lie cold and stiff for a time after each. At last I lost the use of my body—could not rise from my bed or walk a step, and had to be lifted like a child all the time suffering intense pain, and taking almost every known medicine. Part of the time I could read a little, and one day saw an advertisement of your medicine and concluded to try one bottle. By the time I had taken one and one-half bottles I could rise up and take a step or two by being helped, and after I had taken five bottles in all I felt real well. The shaking went away gradually, and I could eat and sleep good, and my friends could scarcely believe it was I. I am sure this medicine is the best in the world. It was a god-sent to me, and I believe it saved my life. I give my name and address, so that if anyone doubts my statement they can write me, or our postmaster or any citizen, as all are acquainted with my case. I am now forty-one years of age, and expect to live as long as the Lord has use for me and do all the good I can in helping the suffering.

Will a remedy which can effect such a marvellous cure as the above, cure you?

A MINISTER OF THE GOSPEL SPEAKS.

PETERSBURG, Ontario, June 27, 1893.

To the Proprietor of South American Nerve Tonic. DEAR SIR:—I have much pleasure in recommending the great SOUTH AMERICAN NERVE TONIC to all who are afflicted with nervous prostration and indigestion. I found very great relief from the very first bottle, which was strongly recommended to me by my druggist. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from South American Nerve Tonic, and also cheerfully recommends it to her fellow sufferers.

(My Signature) Rev W. S. Barker

Sick Headache.

Is dependent on deranged nerve centres and indigestion. Hence its cure must come through building up the Nervous System and curing the Stomach. SOUTH AMERICAN NERVE TONIC will absolutely cure this dreaded malady and prevent its return.

Mr. H. Lang, editor of the TIMES left for Calgary on Monday's delayed train to be present at the reception given to Lieut. Governor and Mrs. Mackintosh on Wednesday evening.

The Union Gospel Temperance meeting held in the Presbyterian Church on Sunday evening was largely attended, the church being crowded to the door. Rev. W. L. Clay and Mr. Spicer had charge of the meeting.

Rheumatism Cured in a Day.—South American Rheumatism Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents sold by W. W. Bole, Druggist.

John Jamieson and Mr. Fitz James called at the TIMES office last evening.

Mr. Edward Ewart was in town on Tuesday making arrangements for the construction of a telephone line from Moose Jaw to Buffalo Lake for the use of the settlers in that district.

The Presbyterian Church S. School will hold their annual Christmas Tree and entertainment to-night Dec. 22nd. A splendid programme consisting of songs, recitations, readings, dialogues and tableaux will be given. This event promises to be the best of the season. Admission 25c.

The programmes for the Methodist S. School entertainment are being printed and they contain the greatest variety of jovial songs, choruses, plays, speeches, orations and dialogues we have ever seen on one bill. All who have had the pleasure of being entertained by the children of this school on former occasions will know of their ability to perform the parts allotted to them. In this entertainment children only will take part.

At the regular meeting of the I.O.F. on Tuesday evening the following officers were elected for the current term: H. Ferguson and Dr. Tidwell being nominated by the Supreme Court: H. Ferguson, C.D.H.C.R.; C.D.J.C.R.; C.R.; W. Little, V.C.R.; H. P. G. Dwyer, R.S.; J. E. Kerr, F.S.; B. Bogue, Chap.; C.D.J. Christian, T.; F. G. Herder, S.W.; Thos. Wright, J.W.; H.W. Carter, S.B.; R.W. Timmins, J.B.; B. Bogue and J. E. Amable, Finance Committee; H. Ferguson and J. E. Amable, Trustees; Dr. Turnbull Medical Examiner.

ATTEMPTED WRECK.

WODESLAY, Dec. 18.—An attempt was made early this morning to wreck No. 1 by a rail being placed across the track about four miles west of here. Fortunately no one was injured, the only accident being the derailment of the engine, which delayed the train between four and five hours.

THE DILEMMA COMEDY CO.

Mr. T. T. Hamill, advance agent for the Dilemma Comedy Co., was in town this week and made arrangements to play his company in the town hall on Thursday, Dec. 28. We do not think anybody will be disappointed. The Dilemma Co. are highly spoken of wherever they have appeared as the following from the Ottawa Free Press shows: "The Dilemma or the Countryman's first visit to New York was the attraction last night. It is a three act comedy, is bristling over with funny situations and was put on in a very commendable manner."

The artists in their respective characters created no end of amusement and kept the very large audiences in hearty laughter throughout. In addition a high class specialty performance was included on the programme, in which Messrs. J. W. Dempsey, A. Downie, E. J. Neddo and P. Wilson along with Misses Clara Herbert and Lavinia appeared. The songs, dancing and other specialties were the best given an Ottawa audience for some time." Secure your seats at Bole's.

CONTINUED FROM PAGE 1.

Mr. T. B. Baker said before the motion was put he wished to call attention to the subject of

FREIGHT RATES.

which constituted about as great a burden as they had to groan under. The C. P. R. had treated them well by the reduction made some time ago to Fort William, but rates should be still lower. Grain should be carried from here to Fort William for 14c a bushel. The freight on coal was too high. The C.P.R. were the lessees of the old Galt road, which was now the same gauge as the C.P.R., and they are charging \$3.30 a ton from Dunmore and \$4.05 a ton from Leithbridge, and from Estevan \$1.75. This is too high. Coal sold in Winnipeg for \$7.50 was sold here for \$9.50. He hoped Mr. Davin would do something in this matter. (Cheers.)

Mr. J. E. Battell, president of the Creamery Association, said the Creamery had not received one dollar of aid from the Government. He thought the Government should aid them. It was high time we had a change of tariff.

The motion was carried unanimously and amid cheers.

Mr. Davin replied saying freight rates could not be affected by legislation but any moral thing in his power he would do, and as to the Creamery he had already viewed. He thanked them for the vote. He always found not only an intelligent but highly sympathetic, kindly and forbearing audience in Moose Jaw (cheers).

Mr. Watson moved and Mr. Davin seconded a vote of thanks to the chairman which was carried with cheers, and Mr. Grayson having replied the meeting separated.

WHOLESALE

Wine, Liquor and Cigar Store.

DRINK and the Death Rate.

The British Medical Association appointed a committee to make enquiries, in order to ascertain the average age of the different categories of drinkers, that is to say, those who refrain completely from alcoholic drink, those who indulge more or less in moderation, and those who drink to excess. This committee has handed in its report. Its conclusions are drawn from 624 deaths, which are divided into five categories of individuals, with the average age attained by each:

Total Abstinents.	61 yrs. 32 days.
Carotid drinkers.	49 " 51 "
Free drinkers.	47 " 46 "
Habitually moderate drinkers.	45 " 15 "
Habitually immoderate drinkers.	40 " 8 "

NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the condition governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therefor, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location for the same, but no mining location shall be granted until actual discovery of the vein, lode, or metal within the claim:

A locative Petroleum in length A local shall not On d son m ing out ance w and fill land f discov Minut time s entit enter for. At year the Loc act pay ac to fo it

For some one to make entry for him. A fee of \$10 is charged for an ordinary home-stead entry; but for lands which have been occupied for actual use of \$10 is charged to meet inspection and cancellations expenses.

homes, except 8 and 25, which have been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is sole head of a family, or male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.

ENTRY.
Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary home-stead entry; but for lands which have been occupied for actual use of \$10 is charged to meet inspection and cancellations expenses.

HOMESTEAD DUTIES.
Under the present law homestead duties may be performed in three ways, as follows:—
1. Three years' cultivation and residence during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.
2. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year; 10 acres to be in crop the second year and 25 acres the third year.

3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof), breaking five acres the first year, cropping those 5 acres and breaking 10 acres additional the second year, and also building a habitable house upon and cultivate his homestead for at least six months in each of the three next succeeding years.

APPLICATION FOR PATENT may be made before the local agent or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands his intention to so do, and thereupon the settler must give application for patent, a week before a homestead inspector, a fee of \$5 is chargeable.

SECOND HOMESTEAD may be taken by anyone who has received a homestead patent or a certificate of pre-emption countermanded by the Commissioner of Dominion Lands upon application for patent made by him, or had earned title to his homestead, or prior to the second day of June, 1880.

INFORMATION.
Full information respecting the land, timber, coal or mineral laws, and copies of these Regulations, as well as those respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba, or in any of the Dominion Land Agents' Offices in Manitoba or the North-West Territories.
